17. Trimline, 2019, oil on linen, 72 x 138 cm \$5500

18. Chasing the Glow, 2020, oil on linen 92 x 184 cm \$9000

The works of MELT were painted after visiting ice caves in Iceland, which were formed by meltwater streams and geothermal heat. The melting effect causes ripples on the ice, and forms a confusion of tunnels. The light entering the caves is incandescent. Many of the world's glaciers are receding, and many ice caves are collapsing.

*Roger Byrt*

Influenced by early Renaissance and late 16th century Italian paintings, the art of Roger Byrt evokes a sense of fantasy which invites a free flow of imagination. There is something musical about his works, in the carefully constructed shapes, which seem to obey just some of the rules of nature: in a continuous state of flux the physical and the metaphysical combine.
